SKILLS

Languages: Java, Python, C++, JavaScript, C, PHP
Frameworks: HTML, CSS, Tailwind CSS, NodeJS, React
Tools/Platforms: MySQL(Joins, Subqueries, Aggregations, Group By, Constraints), MongoDB
Soft Skills: Problem-Solving, Team Player, Leadership, Adaptability

PROJECTS

Event Dashboard – Event & Task Management System | Link Mar'25 – May'25

- Developed an Event & Task Management web application using Core PHP with ~15+ backend features including task prioritization, deadline tracking, and status management, improving task tracking efficiency by ~35%.
- Designed structured backend workflows and state-transition logic handling 100+ test task entries, reducing manual updates by ~30% and improving logic consistency.
- Applied input validation, prepared statements, session authentication, reducing common security vulnerabilities by ~40% and securing 100+ test user records.
- **Tech**: PHP, HTML, Tailwind CSS, JavaScript

Car Rental Website – Online Car Rental Website | Link Sep'24 – Nov'24

- Built a Car Rental web app to simplify bookings; developed responsive frontend with HTML, CSS, JS, and MySQL managing 20+ car records; increased user engagement by ~35%.
- Faced manual listing issues; implemented dynamic UI with database integration for pricing and availability; reduced update effort by ~30%.
- Improved slow search experience; developed JS-based filtering and booking logic with MySQL; reduced selection time by ~40% and enhanced navigation.
- **Tech**: HTML, CSS, JavaScript, MYSQL

TRAINING

Mastering Java Application Development | LINK Jun'25 – Jul'25

- Completed 50+ hour Core Java training to strengthen OOP fundamentals; applied concepts in weekly assessments; improved problem-solving accuracy by ~30%.
- Faced issues in code structure during practice; implemented modular OOP design in labs and mini projects; improved readability by ~35% and reduced runtime errors by ~30%.
- Identified duplication and debugging inefficiencies in early code; adopted structured coding practices; reduced duplication by ~25% and improved maintainability by ~40%.
- **Tech**: Core Java, OOP Concepts, Exception Handling, File Handling.

CERTIFICATES

- ChatGPT-4 Prompt Engineering ChatGPT, Generative AI & LLM| LINK — Aug'25
- Master Generative AI & Generative AI tools (ChatGPT & more) | LINK — Aug'25
- Software Engineering Virtual Job Simulation – JPMORGAN CHASE & CO. | LINK — Sep'24
- Python For Data Science & Development – IBM | LINK — Feb'24
- Hack With Verto's Hackathon – ECHO | LINK — Feb'24

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 6.74 *Since August 2023*

Nalanda International School Gohana, Haryana
Intermediate;(Percentage-68) *Apr 2022 – Feb 2023*

Nalanda International School Gohana, Haryana
Matriculation *Mar 2020 – Feb 2021*
